### **Effect of emergency care simulator combined with problem-based learning in teaching of cardiopulmonary resuscitation**

Wang XP, Martin SM, Li YL, Chen J, Zhang YM.

*Zhonghua Yi Xue Za Zhi. 2008 Jun 17;88(23):1651-3.*

**Overview:** To evaluate the teaching effects of emergency care simulator (ECS) combined with problem-based learning (PBL) in teaching of cardiopulmonary resuscitation (CPR).

**Conclusions:** Using ECS combined with PBL in teaching CPR technique to medical students can improve teaching quality significantly.
