

CLINICAL "SNIPPETS"

Survival rate and factors associated with 1-month survival of witnessed, out-of-hospital, cardiac arrest of cardiac origin with VF and pulseless VT

Tatsuya Nishiuchi, Yasuaki Hayashino, Shunichi Fukuhara et al

Resuscitation (2008) 78, 307 - 313

Overview: Assessment of, and identification of factors associated with, 1-month survival of patients with witnessed, out-of-hospital, cardiac arrest of cardiac origin with VF and pulseless VT

Conclusions: Successful development of a model to predict the likelihood 1-month survivability.
